

"ARE THEY READY YET, SERVANT?" —YAHWEH

YAHWEH BEGINS THE WAY OF A TRIAL:

Seersgate. Pay very close attention. The United States is about to enter a crack that will strip the very foundation if they let the current nation's leader gain leverage over the military to then LEAD THEM to turn against a family member, friend, or loved one in this stated republic. Servant, there will be a great breaking away of the very base that when a civilian looks at a person in a military outfit, there would be a form of PTSD, and survival skill sets would come over that person, and they would want to have their own way: protection against those who were sworn in to protect their nation and the people within.

There is a very ill man who tosses the chess human pieces on the board, taking away help when needed, bringing a pain-filled way to those who once were his friends. Is it a bad thing to want healthcare with the old way of Obamacare? Does the current nation's leader hate a mixed / Black man who accomplished much more than his way, and would give punishment to his own nation and fund another to give hidden wealth to those who say, "Go, Trump. Keep fighting. We build wealth up nicely through other hidden outlets."?

What can now be the real way? The other outlets must weigh whether they will let the evil leader strip the livelihood and weaponize the military against its home. The outlets must weigh whether they will let a new Hitler bring forward a hidden wiping out, using fake news to make the people believe a lie.

If there was no more grace, and the current world lived under the way of prophets of old, with a word, Yahweh would bring a slaying to bring a way to ensure that the current way does not enter a Great Depression.
