

THE DREAM ABOUT A TURNOVER IN POWER

YAHWEH IS SAYING IT:

I showed you what it would be like to have an outlet taken over in subtle ways. At first, there are a few small changes that the complacent person doesn't state is a harmful way. A quick law in change, then one breaking of another rule, followed by another breaking of another rule until it is out of hand. When a governmental leader breaks a standing law over getting their will placed in its placement, there is a knowing that the current leader has gone into leading as they would see fit. And no governing authority at their level and below can rein them in to bring order back into the outlet. What must happen that will make the rebellion stop in the rogue leader? A shaking up.

What does a "shaking up" mean? An entity apart from the governing agent with a greater influence who would not be under that leader would have a way to make him or her bend. This is why the other branches of the governing plan in the United States are unable to rein in the rogue president who is rebelling against the standing order of the land. Something must shake him with a force that lowers him. What would Yahweh bring forward to lower a rogue, rebellious leader who is implementing changes too early? What if the bringing down of a nation is inevitable before the Great Tribulation, but it is happening out of the right time? Yahweh would have to intervene to halt this early stripping.

One man, put in office against Yahweh's will, can be stripped with tester ways. Yahweh can build up a wall against the rogue leader to break them by taking away their leverage. What leverage does the current leader stand and boast about? How grand this nation is. So, I must cause enough damage so that his base of believers turn against him. Then

We (Yahweh) can invoke a death. Yahweh will not specify what the death represents in this. So, do not give any assumptions. What does this model look like? The plagues of Egypt but geared to strip away the leader's portfolio. "Make America Great Again," using rebellion, is showcased too early to bring the nation into third-world poverty. So, Yahweh will shake him. Watch what Yahweh does to intervene.
