

“LET ME DO IT” —YAHWEH

YAHWEH SAYS IT:

Do not pray for delivering ways. Let Me do it.

Let Me harden his evil heart and bring a great war against the lowercase gods of the United States of America. People think that the current nation that you live in is rooted in structural Christianity. Far from it, for this land is home to Satan's U.S. bride who has infiltrated the entertainment world, partnering with preachers in Texas, proclaiming her way as a true Christian. This witch is not a Christian but yields a way of great deception within the church structure. Many know of Satan's bride but would be shocked to learn of her identity unveiled.

Do not pray to Me to bring the current president to a humble way. Let Yahweh do it in a plan to break him to reveal a world-level servant who yields Yahweh into the earth through reformation. Let Me harden him. Let Me wage war in a similar way as is mentioned and carried out in the Great Exodus.

The United States is a tester nation given to prepare you to work out in the real world.

What will be seen after warring against the lowercase gods in this land? World leaders will beg to hear about Yahweh and will turn their whole way back to Me.

Do not fear. Yahweh will not break His Word.
